

Expert Opinion during Making 4.0 Seminar in Universiti Kebangsaan Malaysia

Date: 5 Dec 2019

Venue: Dewan Persidangan FST, UKM

Minutes:

The plenary session was carried out after presentation by UPTC, CETEM/KIT, USM, UKM and UPM

From Malaysian Wood Industry Association (MWIA)

Secretary of MWIA – Hj Ahmad

1. They are more concern syllabus of having skill worker to feed the industry operation.
2. Malaysian Industries are not ready for 4.0 not even 3.0.
3. If the conversion of operating require huge investment most small and medium company will not participate

From Malaysian Furniture Council

Vice President MFC – Mr Albert Khoo

Deputy President MFC – Lim Yee Syuen

1. Furniture industry in Malaysia is not ready for 4.0
2. They have the intention and will take time to reach. The Erasmus program is good to open up the industry in Malaysia for the current Global on 4.0
3. If they are taking off with 4.0 there will be few industry will participate (may be from large company)
4. However, industries open for the changes
5. Most of industries in Malaysia are family based or cottage industries, hence changes of operational if quite obstacles for them

The Erasmus speaker has explain in detail on the program and the intention of that if industries cannot reach the Making 4.0 at least they are will try to meet the requirement
